

e-Stamping Punjab

Old System Issues

Security

- **Security threat despite the security paper and serial number**
- **Impossible Verification**
- **Tampering risk**

Citizen Facilitation

- **Time Consuming**
- **Limited availability based on stock**
- **Excess stamp duty payment due to denomination constraints**
- **Multiple visits**

Administration

- **Revenue leakage**
- **Accounting & Reconciliation**
- **No central database**
- **High Administration cost including printing, stocking, security, safekeeping, distribution**

e-Stamping Objectives

Facilitate the citizen

Prevent revenue leakage

Prevent paper and process related fraudulent practices

Minimize the administrative costs and discretions of the officials

Build a central database to simplify ease of the verification process

Improve Transparency
